URBAN KRUSHIKA

About US

Urban Krushika was founded in 2018 and started the business for landscaping consultation, execution and sales of all horticultural tools. Our team is graduated and trained in horticultural science and agricultural engineering.

Introduction on Landscape design:

Landscape design is a creative discipline that blends nature and culture to shape functional spaces. Bridging the art of garden design with the innovation of landscape architecture, it brings both beauty and purpose to every outdoor setting. At Urban Krushika, we create lush, thoughtfully designed gardens that combine creativity, precision and affordability transforming your surroundings into a serene haven.

Who We Are?

We provide total end to end landscape services, from inspiring concept sketches and detailed plans to the completion of landscapes that blend modern techniques and materials with our innate style to create harmonious environments.

Our specialist team includes skilled designers, engineers, architects and horticulturists who are academically trained and highly experienced in horticulture. Ensuring every project reflects expertise and innovation. With a shared passion for design and sustainability our team is dedicated to delivering meaningful, lasting impact on every landscape we create.
